

## **QUALITY, HEALTH, SAFETY AND ENVIRONMENT POLICY**

By investing in people, information and technology based on our society, people and environment friendly approach and quality mentality, we target zero error production and service, and zero work and environment accidents. With this belief, we promise:

- ✓ To act in line with all legislations, administrative regulations, legal responsibilities and standards regarding health, safety and the environment,
- ✓ To adopt sustainable production principles in an environmental, social and economic terms in accordance with sustainability policy,
- ✓ To consider the health, safety and environmental impacts of technologies, raw materials and auxiliary materials we use and to take the required precautions,
- ✓ To ensure a common perspective in line with the quality, health, safety and environmental requirements at every level of the organization,
- ✓ To provide training and open communication opportunities to all our employees and contractors to ensure constant development,
- ✓ To offer high-quality, environmentally friendly and healthy products and services that meet the current and developing needs and expectations of the consumers, and to make their lives better,
- ✓ To prioritize the safety and health of our employees and stakeholders in accordance with our sustainability policy,
- ✓ To constantly improve all the processes within the scope of the management system.
- ✓ We undertake to set an example with our sensitivity to the environment and society by always prioritizing Corporate Social Responsibility awareness.
